RII20720

Certificate II in Civil Construction provides the practical skills and knowledge to undertake a range of manual tasks on civil construction sites.

This course is hands-on, and on completion you will have a solid foundation of what is required to further your career and education in civil works and infrastructure.

How long will it take?

The standard course duration is 1 year full-time completed within a traineeship. However, duration may vary depending on individual circumstances.

Is the course subsidised?

This qualification is subsidised under the User Choice Program. Australian Apprenticeships (User Choice) is an ACT Government training initiative funded by the ACT and Australian Governments. Contact us to find out if you qualify. If not you can still enrol as a full fee student. For current fee information please visit our website.

Future pathways

After completing the RII20720 Certificate II in Civil Construction you may decide to further your training with a Certificate III course and beyond, pursuing a rewarding career in civil works.
