cwbts@cwbt.com.au

RII30920 Certificate III in Civil Construction (Road Construction and Maintenance) covers a range of skills for operators in the Civil Construction Industry. You will also learn how to work safely on a construction site.

After successfully completing this course you will have a solid foundation of the skills and knowledge needed to work in the civil construction industry.

How long will it take?

The standard course duration is 36 months full-time work based training. This may be a shorter timeframe for existing workers. Please enquire for more details.

Is the course subsidised?

This training is subsidised by the NSW government. Contact us to find out if you qualify. If not, you can still enrol as a full fee student. For current fee information please visit our website.

Future pathways

After completing RII30920 Certificate III in Civil Construction (Road Construction and Maintenance) you may decide to further your training with a Certificate IV qualification in an area such as Building and Construction, Work Health and Safety or Civil Construction.

Units

Participants need to complete 26 units, 8 core units of competency plus 18 elective units. The elective units below are recommended by CWBTS. Students may be able to select different electives in conjunction with their employer depending on workplace requirements. CPCWHS1001 Prepare to work safely in the construction industry (or equivalent) is the white card unit that is required before anyone can enter a construction site.
