cwbs@cwbs.com.au

RII40720 Certificate IV in Civil Construction (Supervision) covers a range of skills for operators in the civil construction industry. You will learn how to supervise complex civil construction activities on large infrastructure projects.

After successfully completing this course you will have the skills to contribute & manage problems & plans and to further your career in the civil construction industry.

How long will it take?

The standard course duration is 30 months full-time work based training. This may be a shorter timeframe for very experienced workers. Please enquire for more details.

Is the course subsidised?

This qualification is subsidised under the User Choice Program. Australian Apprenticeships (User Choice) is an ACT Government training initiative funded by the ACT and Australian Governments. Contact us to find out if you qualify. If not, you can still enrol as a full fee student. For current fee information please visit our website.

Future pathways

After completing RII40720 Certificate IV in Civil Construction (Supervision) you may decide to further your training with a Diploma qualification in an area such as Building and Construction, Work Health and Safety or Civil Construction.

Units

Participants need to complete 12 units of competency consisting of 5 core units plus 7 elective units. At least three (3) electives must be chosen from Group A. At least two (2) must be chosen from Group B and no more than two (2) units may be chosen from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

Your trainer will help you and your employer select the best elective units to meet your needs. CPCWHS1001 Prepare to work safely in the construction industry (or equivalent) is the white card unit that is required before anyone can enter a construction site.
