RH40715

CERTIFICATE IV CIVIL CONSTRUCTION SUPERVISION

This course is specifically designed for experienced civil workers looking to take the next step in their career or recognition in their current role including:

- Foremen
- Site supervisors
- Team Leaders

IS THIS COURSE FOR YOU?

Enrolment checklist

- You are currently working and have experience civil.
- You are able to attend the scheduled training sessions as per the timetable agreed with your employer
- You hold a White Card which is required before you step on to a building and construction site.

Certificate IV in Civil Construction Supervision covers a range of skills for operators in the civil construction industry. You will learn how to supervise complex civil construction activities on large infrastructure projects.

After successfully completing this course you will have the skills to contribute & manage problems & plans and to further your career in the civil construction industry.

How long will it take?

The standard course duration is 12 months full time work based training. This may be a shorter timeframe for very experienced workers. Please enquire for more details.

Is the course subsidised?

This is a full fee qualification. Payment plans are available and delivery is available across QLD, NSW & the ACT, For current fee information please visit our website.

Future pathways

After completing RII40715 Certificate IV in Civil Construction Supervision you may decide to further your training with a Diploma qualification in an area such as Building and Construction, Work Health and Safety or Civil Construction.

Units

Participants need to complete 12 units of competency consisting of 5 core units plus 7 elective units. Your train will help you and your employer select the best elective units to meet your needs. CPCCWHS1001 Prepare to work safely in the construction industry (or equivalent) is the white card unit that is required before anyone can enter a construction site.
